Time to Wake up

20th - 27th of June 2023 | Summer - Retreat

The core of this work is the love of truth. The love of truth awakens in us the deeper sense of the perception of reality. The perception of reality shakes us to the deepest core.

The shaking in the core is the source of all love.

This love is pure giving away.

This is the beginning of the new world...

If you think you are doing it for yourself, you are standing in the way of what wants to happen here. This is exactly the spiritual illusion. This self is not real. It exists only in our imagination. It only exists in order to be able to look at its own complete nothingness one day.

Thus it disappears and makes room for something greater, more beautiful:

The truth of what is.

On this retreat we work in dialogue on the fundamental questions of our human existence:

"Who am I? | "What am I?" | "What is life?" | "What is an Other?"

"What am I like when completely alone?" | "What is Love?" | "What is sexuality?"

"What is intimacy?" | "What is Freedom?" | "What is truth - illusion - awakening - now?" This work is embedded and rounded out in silence and awareness, walks, evening runs, one-on-one conversations, spontaneous teachings, circle breath work, and free dance.
